

Design report

Hand in a document in .pdf format, but if you have other files to hand in as well (i.e. images/drawings etc.), then you should zip/rar the package.

The report will be graded according to the following setup:

- Introduction: 10%
- Prototypes(ex. Figma): 15%
- User testing: 15%
- Class diagram: 20%
- Navigation diagram: 10%
- Programming rules: 10%
- General tidyness: 5%
- Other: 15%
 - For example:
 - Flow chart
 - State diagram
 - Next steps and changes
 - Etc

Remember to use appendix as needed for more detailed material and conclusion where it applies.
