

# Requirement Analysis Report

Hand in a document in .pdf format, but if you have other files to hand in as well (i.e. images/drawings etc.), then you should zip/rar the package.

The document will be graded accordingly:

- Introduction: 10%
- Requirement list: 25%
- Use cases/Scenarios 15%
- Description of user groups and analysis 10%
- Wireframes and prototype interviews: 20%
- General tidiness: 10%
- Other: 10%

Ex:

- Comparison to similar systems/applications
- Use case diagram
- Statistics
- Usability goals
- Big Picture Map

Remember to use appendix as needed for more detailed material.
